experience

April 2019 - currently

Software Architect at Gture, NORWAY
Developer and tech lead in a digital consulting company. My responsibilities consist in building Frontend applications and leading teams of developers. I work mostly with React/Redux, but have also participated in Angular and Vue.js projects. I am working for clients like Preem, PwC, Statsbygg, Telenor Maritime and Redningsselskapet.

October 2018 - April 2019

Full-time developer on a self created mobile app, NORWAY
Designed and developed a React Native/Redux app.

education

2014 - 2018

Engineering Student INSA Toulouse, FRANCE
(High level athlete-status, prolonged course of study)
Five-year integrated master program in computer science at «Institut National des Sciences Appliquées de Toulouse».

Exchange Student NTNU Trondheim, NORWAY
One year exchange program in design thinking and computer science.

Ended my studies prior to graduating due to job opportunity at Gture.

2011 - 2014

French Scientific «Baccalauréat»
Specialised in mathematics — grade A.
